LASER SKIN REJUVENATION:

(Price per session)

Our photo facials use AFT technology through the SSR handpiece to target pigment and red chromophores.

This treatment improves sun damage, redness and collagen production in the skin. Minimal downtime and glowing skin.

Environ, Dermalogica, DermaFix, Heliocare, Island Tribe, Rapid Lash, BioSculpture, SoopaSkin, Proactive Collagen, and Zinzino Supplements

ALMA LASER TREATMENTS

We use the Alma Harmonie light platform, using the SHR (super hair removal) and SSR (super skin rejuvenation) handpieces with AFT Technology. These Advanced Florescent Technology (AFT) IPL applicators offer a variety of spectrums and cut-off filters for safe and efficient delivery of light energy, optimized for pigmentation vascular conditions and hair removal.

Things to remember:

- Hair removal requires 6-12 treatments plus maintenance.
- Skin rejuvenation 4-6 treatments and yearly maintenance.
- Treatments need to be performed 4-6 or 6-8 weekly
- Everyone responds differently, so difficult to determine number of treatments required.
- Avoid direct sun exposure before and after your treatments and protect your skin using a high factor, broad spectrum sunscreen.
- Please shave the area the day before your treatment
- Do not pluck or wax the area being treated.
